

Procurement Excellence

Adiem is a super specialist procurement service provider to the Energy, Engineering, Mining and Construction industries.

Our knowledge of global procurement and logistics enables us to support our clients to achieve optimum efficiency, whether the focus be technical, price, or speed of delivery. We operate several procurements models; each being tailored to our clients' needs.

Why Choose Adiem?

No surprise, INDIA & CHINA are major destination for sourcing construction & MEP material worldwide! But to truly leverage the benefits of sourcing from these complex markets, you need help of a partner who has sound knowledge of local market, product and strong bargaining power.

Backed by experts and qualified team with strong supply chain network, **Adiem** promises to be your reliable partner for all construction & MEP material needs.

As a procurement companies in the India, we have a deep knowledge of the industries that we support. From complex technical requirements to simple tail-end spend, we are able to help you. With experience exporting to Africa, the Middle East and Nepal, our dedicated teams have the knowledge and expertise to ensure your orders reach you in time and within budget.

Our Mission

At **Adiem**, our mission is to provide our clients efficient procurement services and solutions of reliable, cost-effective, highest quality and efficient services. We strive to create strong relationships with our clients and suppliers to ensure high quality and timely outcomes.

Our Vision

At **Adiem**, our vision is to be the world's leading provider of procurement services and solutions. We strive to optimize operations, and reduce costs for our customers, while providing them with the highest quality of service.

Our Values

We aim to align our core values with those whom we work with. We believe our values are critical when building the best-in-class procurement service we provide.

- To approach others with transparency, dignity, and respect. We believe everyone should be seen, heard, and valued; hearing diverse perspectives fuels our ambition to be innovative.,
- To innovate and expand our business offerings, championing our customers to achieve success.
- To be accountable for our own actions regarding social and environmental responsibility; complying with our policies and guidelines. We are committed to aiding the worlds journey towards net zero.

Our Services

Design, Drawing & BOQ

We provide detailed drawings and designs customized as per our client's needs. Our design team works closely with clients to ensure all requirements are captured accurately, and further proceed for BOQ generation as per best brand selection.

Sourcing

Our dedicated team sources for the best suitable supplier after understanding customer's demand and specification.

Buying

Once we identify most suitable suppliers to fulfil your demand, we negotiate with suppliers to offer you the best possible rates in the market. As we are trading with many of these suppliers for years, so we are privileged for the best rates, quality product and faster delivery time.

Inspection

To make sure that the product and quality is precisely matching to your order and specifications, we thoroughly inspect it and verify all details before dispatch.

Packing

After inspection, many products require quality packaging to ensure safe and secure delivery. At Adiem, we give special attention to packaging so that goods are not damaged and customer can receive goods in safe and proper condition. Our team has vast experience for palletizing, lashing, wooden crate packing, fragile items packaging and vacuum packaging.

Consolidate Shipping

If order quantity is less than a container from one particular supplier, then we bring it to our warehouse from where it is sent to shipping port after inspection and verification. We can also help you in taking the best rates from renowned shipping lines. Due to high volume and long-term cooperation with shipping lines, we can offer you the best freight available in the market.

Custom Clearance, Fumigation & third-party inspection

We take care of all necessary rules, regulations and obligatory compliance required for export. You can be rest assured that there will be no hassles in processing and dispatching of your order. Our team is highly experienced in third-party inspection, documentation, fumigation, handling of hazardous cargo, air cargo etc.

Delivery and installation

We can also provide doorstep delivery and installation services if required. To avoid any hassle on customer end, Adiem team is always ready to serve as per customer requirement.

After Sales Support

Our work doesn't end with supply and installation; we cover most of our supplied and installed products with 2 years Guarantee + 3 years warranty.

Message from the founder

For the last 10 years, since our inception, we have been delivering unique and highly professional procurement services to our clients. The dedication we have for our customers, coupled with our in-depth understanding of the markets in which we operate, is second-to-none.

One of the reasons why we remain at the forefront of the procurement sector is our refusal to lose sight of our company philosophy, that whatever your request – no matter how complex or demanding ‘we get it’.

We are an extension of your team and see our priority function being to keep your wheels firmly in motion through our extensive experience, technological capabilities and the efficiency of our procurement processes – be they individual requests or full outsourced procurement and supply chain projects. Unrivalled in customer dedication and understanding of the industry, some of the biggest names in the oil and gas industry, and infrastructure, rely on us, often as their sole supplier, to deliver their procurement needs.

Ultimately, our successful delivery of projects, sustainable and ethical business principles and innate understanding of our customers’ requirements, has helped to improve the outputs and business performances of our customers – the precise results we seek to achieve.

Our Product Expertise

1. Fire Detection & Fire Safety: -

- Conventional & Addressable Fire Alarm System
- Gas Leakage Alarm System
- Anti-Theft System
- Public Address & Voice Alarm System
- Portable & Trolley Fire Extinguishers
- Fire Hydrant System
- Fire Shaft Door & Cabinet
- Emergency & Exit Light and Signages
- Fireproof Doors
- Fire Suppression System & Tube Suppression System
- Nitrogen Injection Fire Prevention & Extinguishing System

2. Electrical: -

- Wires & Cable
- Switches & Home Appliances
- LT, HT, PCC & MCC Panels
- Cable Tray & Raceways
- Conduits
- Gland & Lugs
- Indoor & Outdoor Lighting
- Decorative Lights
- Appliances

3. HVAC

- Copper Tubes & Fittings
- Cooling Tower
- Air Diffusers & Grills
- Air Dampers
- Inline & Propellers Fans
- Ventilation Products
- Fan Coil Units
- Flexible Ducts
- Sheet for Ducts
- Insulation Tubes and Sheets

4. Plumbing

- MS, CI, GI, SS Pipe & Fittings
- Valves for Water, Oil & Gas
- Water Meters, Pressure Gauge and Pressure Switches
- Flanges & Clamps
- Anti-corrosive tapes and Sheet
- Rubber Sheets and Flanges
- Anti Vibration Pads

ADIEM
